47. CIVIL SUPPLIES. Till recently there was no procurement. Rice and wheat are imported from Madras Province for local consumption. Rural Rationing is in force throughout the State. Ration cards for rice, wheat and kerosene were issued. The State is purely a dry area and no paddy is grown. But the soil is very fertile and millets are grown sufficiently. The State is self-sufficient in this respect. Under the orders of the Board of Revenue instructions have been issued to Special Officer, Sandur to procure available surplus millets by pursuasive measures through the agency of 2 Co-operative institutions with their own finances, under conditions similar to those obtained in Bellary District. As the Special Officer has got numerous other items of work to be attended to I hav appointed a Firka Supply Officer, in anticipation of Government sanction for Sandur area to assist him in the procurement work. The General Secretary to Government is the Rationing authority and is assisted by a clerk called the 'Civil Supplies Assistant'.

There seems to be no necessity to disturb or reorganise the existing Rationing system in the State at present till it becomes an integral part of the district for all purposes.

(P) A/ The State imports every month 225 tons of kerosene ~~ex~~ oil from Bellary and it is distributed on ration cards.

The Civil Supplies Establishment also supervises mill cloth licenses and the distribution of steel and cement. Formerly the Government of India used to allot certain quantities of steel for the State and now that the State has merged with the Indian Union the Government of India have directed that the Madras Government may be approached in this direction. A reference has been made to the Government in this respect.
